Anti-squeal shim

as OEM specification

Rubber

Metal

Rubber

All pads are produced for Juratek in OEM approved factories with full **quality** and **environmental** approval.

ISO 9001 is a standard related to quality management systems and designed to help organizations ensure that they meet the needs of customers.

TS 16949 applies to the design, development and production of automotive related products. Prepared by the International Automotive Task Force (IATF) to harmonise the vehicle manufacturers quality requirements.

ISO 14001 is a standard related to environmental management that exists to help organizations (a) minimize how their operations negatively affect the environment; (b) comply with applicable laws, regulations, and other environmentally oriented requirements.
