Webshop Guide

JURATEK

Juratek have recently launched a new e-commerce webshop, which gives customers valueable information and tools at their fingertips.

This tool, which is available to all Juratek customers, allows you to view availability and price for every product in our range including any special prices and quantity rates. Orders can be placed and will be processed immediately by our sales team and dispatched in the usual method. Order acknowledgments are sent directly to your email address.

Below is a list of the features available and how to use them.

Sales contact details

click the name to send an email directly to your internal or external account manager

Search by part or cross reference

this search box will take Juratek numbers, OE numbers or any aftermarket part number. It will even search partial numbers and show you any relevant matches. [see section 1](#)

2.4 **Alternative parts**
this symbol means that an alternative part is available. for e.g VOL110K is a brake disc and fitting kit combination (VOL110 & JCK401). However these two parts are available separately, so VOL110 is offered as an alternative part.

2.5 **Type a Part no** - this box allows you to add items to the shopping cart directly, even cross references can be added here.

2.6 **Weights** - each products weight is displayed and the total weight is then displayed. This helps when a total weight limit is set, for example for export customers with a total truck weight of 24,000kg

2.11 Order Confirmation by email

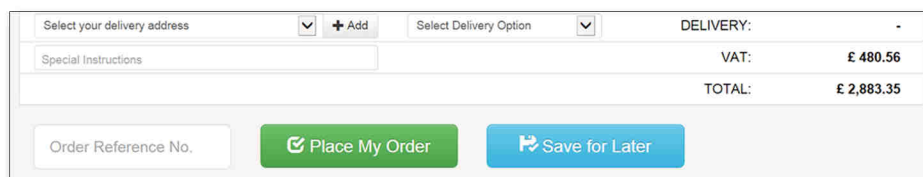

You will also receive an order confirmation by email, which contains the same information, with additional info:

- Parts that are not available
- The list of part numbers is now in Alpha-Numeric order. This list can then be used to check the order into your system once you receive it.

Section 2 - My Shopping Cart

2.12 Save my order

We have also included the facility to save your order to be processed at a later time. This function can also be used as a favourites list or ongoing stock order. To save your order click the  button.

Once you save your order and give it a name you will see it displayed like this.

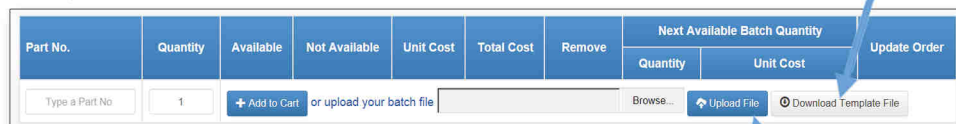

Saved Carts			
Name	Last Added	Created Date	Options
June Stock Order		20/06/2014 13:21	 

You will notice that the date you saved it is displayed, but the date last added is blank. This is because this order has not been added back to the shopping cart to be processed. Once it is added to the shopping cart, the date will be displayed, but the order still remains in your saved carts, so you can continue to use again and again.

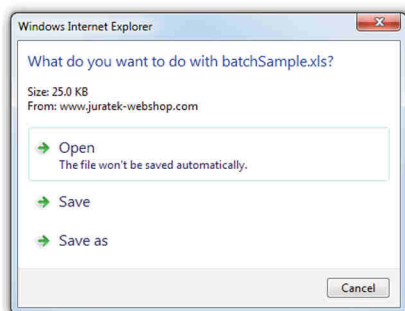

2.13 Bulk Upload - We have also included the facility to upload large orders directly from an excel file. To use this facility you must use the template layout which can be downloaded by clicking this button.

Step 1

Step 2

If you wish to use this template regularly then select save or alternatively select open. Then complete the file in this way.

Step 3

JURATEK Batch File	
Part No.	Qty.
BMW100	1
JCP1083	10
FOR116	6

Fill in the columns in the excel file and then save the file in a location you can remember.

Step 4

Once you complete the list and have saved it click on the  button, select your file and then click on  button, then be patient as all the part numbers on your list need to be checked for price and availability, which may take several minutes, depending on your internet connection speed. Once this is processed the parts will appear in the shopping cart as normal.

3.1 New products

Recent product launches are displayed here and are directly linked to the relevant part numbers, allowing you to see the price and add them to your order. simply click on the image to see all related part numbers.

Section 4 - Search by Dimensions

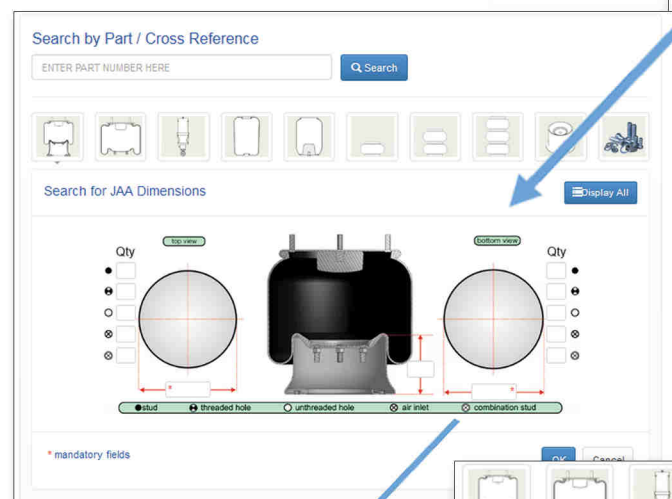

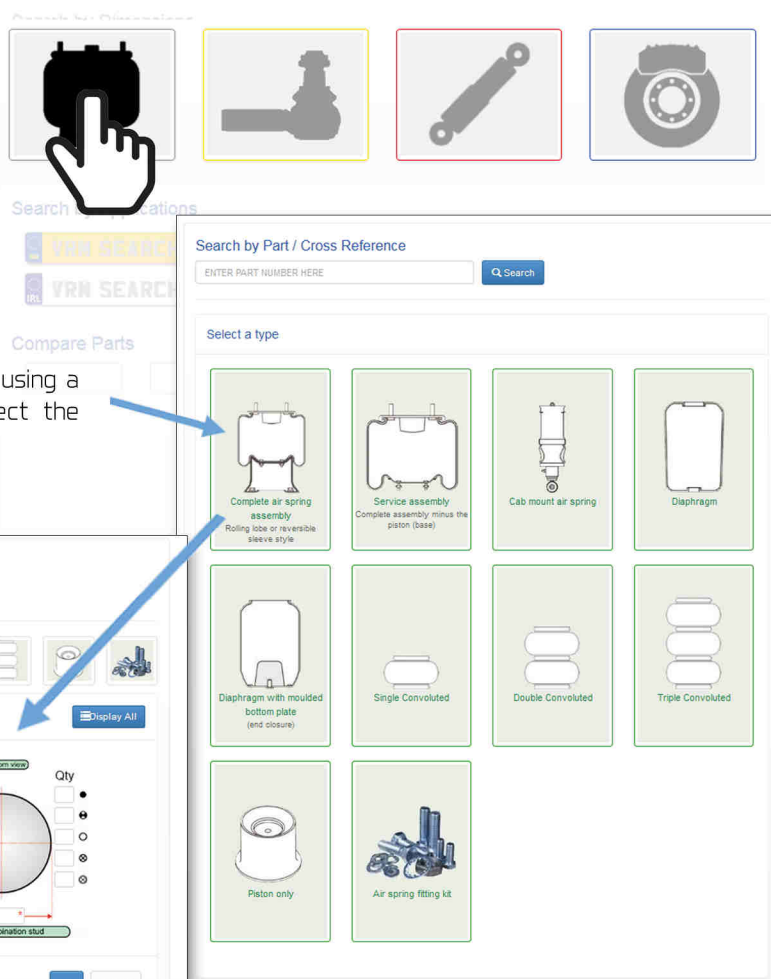

Dimensions

All products can be searched for using the critical dimensions.

Air Springs

4.1.1 Air springs

In order to identify the correct Air spring using a visual inspection, you first need to select the family of air springs.

4.1.2 Search template

enter the dimensions that you know or can measure. There are some mandatory fields which will help to narrow down the search. For the top and bottom plate, indicate the quantity of each kind of fitting. Once you have input the required measurements click OK

4.1.3 Search Results

All Air Springs matching the dimensions are shown. The linked fitting kit is also shown along with the dimensions and an image. Notice too that by ticking the small boxes circled here it is possible to compare product side by side.

All Air Springs have kit included where available but can be ordered separately click here for list.

Steering & Suspension

4.2.1 Steering & Suspension

In order to identify the correct Steering or Suspension component using a visual inspection, you first need to select the type of component you are looking for, this will then display the appropriate search template.

Search by Dimensions

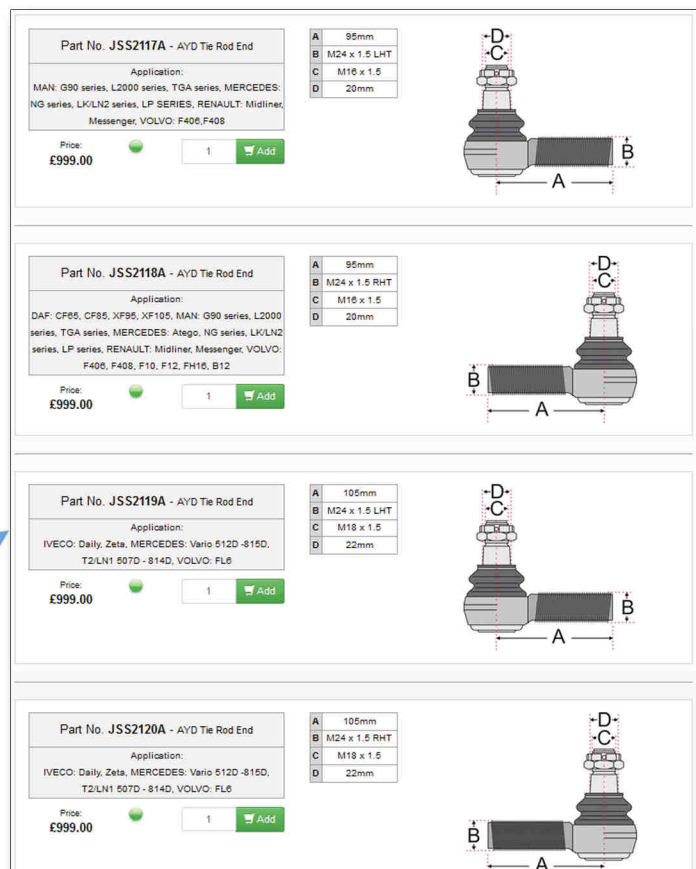

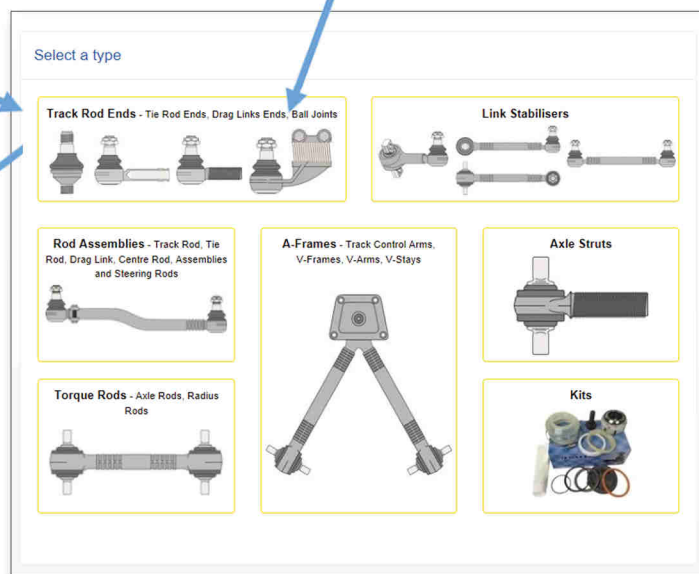

4.2.2 Search template

enter the dimensions that you know or can measure. There are some mandatory fields which will help to narrow down the search. Thread sizes can be selected from the drop down boxes. Once you have entered all the required dimensions, click OK.

4.2.3 Search results

We have included a tolerance into each dimension to account for variations in measurements taken. This tolerance has been set by our engineering department and varies depending on the product and dimension selected. The search results will display all products that match your criteria and are displayed in part number order. These results show relevant information including price and availability. To see a larger image simply click on the image.

Section 4 - Search by Dimensions

Shock Absorbers

4.3.1 Shock Absorbers

In order to identify the correct shock absorber using a visual inspection, you first need to select the type of component you are looking for, this will then display the appropriate search template.

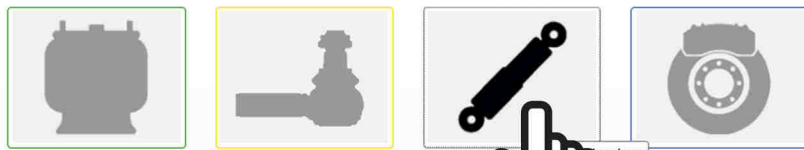

4.3.2 Search template

enter the dimensions that you know or can measure. There are some mandatory fields which will help to narrow down the search. Once you have input the required measurements click OK

4.3.3 Search results

We have included a tolerance into each dimension to account for variations in measurements taken. This tolerance has been set by our engineering department and varies depending on the product and dimension selected. The search results will display all products that match your criteria and are displayed in part number order. These results show relevant information including price and availability. To see a larger image simply click on the image.

5.2.2 Search results

this registration has linked successfully to the DVLA database and has matched up to the information held in our database, to show the parts fitted to this vehicle. to see the price and availability of these items, click on the required part number.

On CV applications we list Brakes, Air Springs, Shock Absorbers and Steering where possible.

On Steering parts such as drag links, we show these as a FRONT position rather than Front axle etc. Where there is an adjustable end or related parts, these are also listed, in the comments

for OE number: 1363858 (JSS1735), 1363859 (JSS1719A), 1448062 (JSS1735), 1448063, 1602820 (JSS1735), 1602821 (JSS1719A)

Position on Axle: Pitman Arm to 1st FA

5.3.1 Application search when VRM not linked to DVLA

VRM link is not available for all models. However in order to assist in searching for the correct vehicle the vehicle details are displayed, thus enabling the use of the manual selection.

5.3.2 Manual Search

Entering a non-linked vehicle registration brings up the vehicle details. The example here shows that BK61LWM is a
Make: **MERCEDES**
Model: **ATEGO 2633B DAY**
Year: **2012**

Armed with this information, simply follow these steps.

Step 1. select the vehicle category

Step 2. use the drop down boxes to select the make, model, submodel and year and so on, then click search

Step 3. the parts for your selected vehicle are now displayed. to see price and availability simply click the appropriate part.

6.2.4 Sales by Post Code

Because some customers arrange for orders to be shipped directly to their customers, we have built a report to analyse the sales by post code. This enables you to see which of your customers buys the most of Juratek's products.

14m Sales by Post Code

6.2.5 Sales by Branch

If you have different depots with separate accounts then we have also built the facility for the head office account to be able to analyse the sales of other depots.

You will notice that an extra field has now been included. You can analyse the sales of individual branches or all together.
