

If we can stop these....

Today, Juratek is recognised as one of Europe's leading distributors of brake discs and brake pads for heavy commercial vehicles, trailers and buses.

We are well known across Europe and beyond for our high standards of quality, durability and in-service performance, which is demanded at all levels of distribution and by all users in this very safety conscious market.

Using our expert knowledge gained in the heavy vehicle sector, we have designed and launched a range of brake discs and brake pads for passenger cars and light commercial vehicles.

This range is made to the same exacting standards as our current heavy commercial range. The comprehensive range is available on a next day delivery service nationwide and is backed up by large stocks and technical support directly from Juratek trained professionals.
